ENVIRONMENTAL POLICY

At Venture Steel Inc. we are committed to environmental leadership in all areas of our business. Venture Steel Inc. has put policies in place to provide a safe, healthy workplace, protecting the environment, conserving energy and our planets natural resources. By following these policies we believe that we can achieve a healthy, safe environment and a better community for all.

We are committed to:

- *Being an environmentally responsible neighbor in the communities where we operate, and correcting all conditions that endanger health, safety, or the environment.*
- *Conserving our natural resources by adopting pollution prevention practices. Examples include extending the life of equipment through preventive maintenance scheduling, eliminating waste through the reuse of packaging materials wherever appropriate, and reworking used equipment. We never discard what we can reuse.*
- *Ensuring the responsible use of energy throughout our business, including conserving energy by improving energy efficiency, and giving preference to renewable over non-renewable energy when feasible.*
- *Ensuring we operate as a green organization diverting as many bi-products as possible from landfill allowing us to exceed a 95% recycling rate.*
- *Promptly correcting any practice or condition not in compliance with this policy.*

On behalf of our Team,

Tony Kafato
President
